

NEWS ALERT

Issue: 7/11 **Subject:** Public Holiday Notes

Date: 12/12/11

An updated commentary on the treatment of Public Holidays has been included in the various Industry sections.

Please note that there are different penalty rates payable for work on Public Holidays according to the Industry your employees work in.

In particular, Employers in the Grain, Cotton and Dairy Industries need to be aware that different transitional arrangements apply in relation to the amount of penalty rates payable as compared to those in the Cattle, Wool, Feedlot, Shearing, and Pig Industries.

If you have an employee working in more than one Industry the entitlements are prescribed according to the one in which the employee spends the majority of time.

See "Public Holidays" in your Industry section for details.
